Introduction

Nowadays, the world is full of technology. One of the wonderful technologies is called the computer, it is probably one of the most common technology after the computer. In our webquest, you will be researching about the computer, it's different attribute, components to make it, etc.

Tasks

Research and make a presentation of the different components that make up a computer. You will learn the usage of the different main parts(RAM, Motherbord, Wifi Card, ETC). With this knowledge, you will possibly learn how to build a homemade computer. This will be more efficient and will require less money.

Process

In this slide we gave you some links to research about the computers components. There are some components that aren't in there so you will have to research a little more. http://www.comptechdoc.org/hardware/pc/begin/hwcomputer.html

Evaluation

You will be assessed based on the amount of knowledge you learned on the different components and it's usage.

Category and Score					Score
				Total Score	10

Conclusion

I hope you have learned a lot. In the future, you will save lots of money building a computer instead of buying one pre-made.
