Introduction

¡Bienvenidos! Welcome to the webquest on the food of Spain. Have you ever tried a Spanish dish? Do you know what types of foods people in Spain eat? You will get to know more about Spain and the many ingredients the Spanish use in their delicious dishes! This activity is the assessment for our food vocabulary. (In addition, the numbers vocabulary Power Point has been attached for your convenience.)

Tasks

You will research Spanish food and customs on the Internet and answer a questionnaire. Then, you will create a menu for a Spanish restaurant (that you create) that meets certain requirements.

Process

Step 1: 1. Answer questions on the "What do you know about Spanish Food?" worksheet (download it below) and turn it in before beginning your menu project. All worksheet answers can be found on the websites listed on this page and/or the next page.

Evaluation

The menu is worth 80 points and the "What do you know about Spanish food?" Worksheet is worth 15 points. The total point grade for this assignment is 95 and it will be counted as a SUMMATIVE grade. For the menu: You will be creating a menu totally in Spanish. The following things must be included on your menu: 1. At least 2 choices each for Breakfast, Lunch, Dinner, & Desserts. One of each category should be something typical of what people in Spain would eat for that meal. 2. A name for your restaurant (in Spanish, of course) 3. An address (real or fake) for the restaurant. 4. Prices for each item (using Euros as Spain does.) 5. Accurate use of vocabulary and some detail for each item. 6. No spelling errors. 7. Creativity in graphic design or color to make your menu inviting. Below is the rubric I will use to grade your menu and a list of useful words to describe foods:

Category and Score	5	10	15	20	Score
Contains all Required Elements	Menu lacks more than one of the following things: categories of meals, name of restaurant, address and/or prices	Menu lacks one of the following things: categories of meals, name of restaurant, address and/or prices	All (or almost all) of the elements are present, but are incomplete or instructions were not followed.	All elements are present and are accurate according to the instructions given for the assignment.	
Neatness & Creativity	Incomplete, not creative, sloppy	Not very creative and/or sloppy	Somewhat creative and pleasing to the eye.	Very creative, colorful and eye-catching. Easy to read	
Spelling & Accuracy	5 or more errors in spelling and/or grammar. English is used or vocabulary is used incorrectly.	2-4 errors in spelling and/or grammar. Vocabulary is mostly accurate.	1-2 errors in spelling or grammar. Accurate and good use of vocabulary	No errors, very accurate and thorough use of Spanish food vocabulary	
Detail	No detail about food items is given.	Very little detail or description is given for food items.	Somewhat detailed and descriptive.	Good descriptions of items are given.	
				Total Score	

Conclusion

¡Felicidades! Congratulations on finishing! I hope you have learned enough information on Spanish cuisine that you can order in a Spanish restaurant, or at least know that they will not serve you tacos! You don't have to go to Spain to eat great Spanish foods. There are great Spanish restaurants in Chicago and the surrounding areas--there's even one in Naperville! I encourage you to try one some time. ¡Qué sabroso!

Teacher Page

This quest was done with my Spanish 2 students at the end of first semester.
