Introduction

The summer holiday is coming soon! Do you have any plans or places that you want to go? It is time to start thinking about it. Imagine that you now have the chance to choose any place in the world to visit :)Let the magic begin! Start planning!

Tasks

Summer is a time to relax and enjoy. You can enjoy the sunshine and the beach, and lots more.... In this task, I would like you to imagine that you can visit a place anywhere in the world and write an itinery about the trip. Try to elaborate and explain about why you would like to visit that place and who you would like to go with. For me, I would like to visit France, as it is the city of romance. I would like to go there with my family, and visit the Eiffel Tower and the Louvre Museum. I hope to taste the famous macaroons and chocolates, and have a relaxing tea. The night view of Paris is stunning and I am sure to take more photos there!

Process

Plan your trip by following these steps: 1. Think about where to go and who to go with. Think about why you would like to go there. 2. Find out more about the city's history and background information (such as climate and transport system) on the Internet. This can help you know more about the city's culture and background, which will aid you in experiencing the uniqueness of the place. 3. Look for the city's famous attractions and 'must go' places on the Internet. 4. Gather up all the information and write an itinery for your trip. Write down what places you want to go and what to do for each day of the trip. Your itinery can be written like this: (e.g. Paris) Day One: Ile de la cite: Notre Dame, Hotel Dieu, Palais de Justice, Saint Chapelle, Conciergerie, Square du Vert Galant and Point Neuf, Walk along the Seine River. Latin Quarter: Musee Naturel du Moyen Age (did not go inside), Cluny Square, La Sorbonne, College de France, Saint Severin church, Saint Etienne du-Mont church, Pantheon, Place Saint Michael. Eiffel Tower: at night (sparkling lights for 5 minutes) 5. Prepare for a 3 minute presentation in class. You may include pictures and videos in your powerpoint.

Evaluation

Evaluation will be based on the 3-minute presentation given by students. Feedback of the presentation will also be given to students. Evaluation criteria will be based as follows: - fluency- content- correct format of itinery- creativity and design

Category and Score					Score
				Total Score	

Conclusion

After writing an itinery, how do you feel? Do you feel excited about visiting a new place and experience its culture and natural beauty? Travelling is more than just visiting different places, it is also about experience and discovery. Share the joy of travelling with your beloved ones and have an enjoyable summer!

Teacher Page

Through this activity, it is hoped that students will be able to: - search for information about different countries on the Internet- write an itinerary in a nice and detailed way- present in front of the class with the aid of powerpoint (speaking skills could be practiced) - know more about the world around us
