**Last Modified:** 2013-03-25 14:29:44

**WebQuest URL:** <http://zunal.com/webquest.php?w=187876>

### Introduction

Welcome time travellers! You will be travelling back in time to explore the land of the dinosaurs and find important information about them. Before continuing, make sure you have your Dinosaur Report ready. You will be travelling back to over 65,000,000 years ago where you will become a paleontologist and you will be given a task to complete. All information that you gather will be written down in your Dinosaur Report. Once you have figured out all of the information, you will bring your Dinosaur Report back to Dinosaur Headquarters where it will be examined and used by your class. Are you ready to travel back in time? Ready...here we go!

### Tasks

Wow! We made it. Here is your task: you will be completing your Dinosaur Report on one of the following dinosaurs: Tyrannosaurus Rex, Stegosaurus, Brachiosaurus, Pteranodon, and Velociraptor. You will be answering the following questions: 1. What does their name mean? 2. What country were they found in? 3. What time period were they found in? 4. What was their diet (carnivore, herbivore, omnivore)? 5. What was their height? 6. What was their length? 7. What was their weight? 8. Does your dinosaur have a tail? 9. Did your dinosaur fly? 10. How many legs did your dinosaur stand on? and more! All your questions can be found in your Dinosaur Report. Again, it is very important that you record each question and answer in your Dinosaur Report.

#### Brachiosaurus

Ready...Set...GO! Read the questions to your report carefully. Then, find the answers from the internet links below. Don't forget there are videos and other information sheets at the bottom of this webpage. The Dinosaurs - Brachiosaurus Kids - Dinosaurs - Brachiosaurus Enchanted Learning - Brachiosaurus

#### Tyrannosaurus Rex

Ready...Set...GO! Read the questions to your report carefully. Then, find the answers from the internet links below. #### Pteranodon

Ready...Set...GO! Read the questions to your report carefully. Then, find the answers from the internet links below. Don't forget there are videos and other information sheets at the bottom of this webpage. Kids Dinosaurs - Pteranodon (scroll down) Enchanted Learning - Pteranodon

### Conclusion

Welcome back! You have survived your adventure and have gained a lot of knowledge about dinosaurs. You have also helped us learn about certain dinosaurs. Thank you for all of your help!

## Teacher Page

**Focus:** This webquest is focused on helping students use different resources to gather information about specific dinosaurs. This could be done as an individual assignment or a group assignment. **Goals:** I would use this webquest during a unit on dinosaurs and prehistoric times. This allows them to do have some prior knowledge and then do their own research. It also allows students to gather information and record information
