Introduction

Greetings students, I am Zeus the king of Olympus. I brought you here because I need your help. The Gods of Olympus have lost their way. The evil Titans have found a way to remove their memories. It is your job to remind them of their purpose. Help them to discover who they are, what their abilities are and relay to them stories of their past deeds, both good and bad. But beware! You must prove that the information you have found is real and not something the Titans have planted to fool you. Prove to the gods and goddesses that the information you find truly belongs to them. Finally your task will be complete once you have helped the god or goddess of your choice to once again use their powers. I have provided you with clues to help you on your way. Click on the task tab to get started.

Tasks

Zeus has tasked you with finding information to help the gods of Olympus get their memories back. This task has two main parts. Part 1: Research the gods and goddesses using the links in the process tab. Find out about their family, powers and past adventures. Part 2: Create an original myth using the characteristics of your god or goddess. Click on the process tab to get the exact details of your quest and find tools to help you on your way.

Process

Step 1: Zeus has tasked you with choosing one of the gods or goddesses listed below and helping them to rediscover who they are. Take a moment to click on each link and see which god or goddess you wish to help. Once you have chosen go to step two and discover what information it is important for you to find. Poseidon, Hades, Hestia, Hera, Ares, Athena, Apollo, Aphrodite, Hermes, Artemis, Hephaestus. Step 2: Use the links on this page to answer the questions on the Job Application about your chosen god or goddess. Meet the Greek Gods Mythweb, Greek Myths for kids, Interactive Greece, The Pantheon of Gods, Greek God Family Tree. Remember Zeus's warning about proving that your research is not a trick of the Titan's. Use the citation sheets to cite each source you use. You must use a minimum of 3 sources to find the information you need. You can download the application below. Step 3: Now that you know all about your god or goddess, their skills, powers, family and more. Help them to regain their knowledge and use their powers by creating a new myth about their lives. The myth must be one page in length. It cannot use any modern items, places or people. Make sure that you check your spelling, grammar and punctuation. Click here to see a quick power point that will help you write your myth. Then.... Click here to create a visual aid to help you write your myth. Make sure your myth describes something in nature, gives the gods and goddesses human feelings and traits and involves some type of transformation. All myths should be at least one page in length, double spaced. Make sure you use proper grammar, appropriate settings, dialogue and reference your research. Often mythology will place one god or goddess in conflict with another. You can do this too BUT make sure you get the facts about both gods correct. DO YOUR RESEARCH.
