## Introduction

## Tasks

A disaster could happen any time and its important that we are informed and prepared. Your task is to use Mr Google to help you create the best possible virtual Disaster Kit. Use the resources in the TASK section to help get you started, but feel free to visit other websites with information and recommendations for Disaster Kits. Google the images and insert them into your USPACE task called Virtual Survival Kit. Click on the link to the NZ government site: &nbsp;Get&nbsp;Thru.&nbsp;Find the list of items needed to create a good survival kit which would help you in any Natural Disaster. Create a virtual Survival kit in USPACE (TASKS-INQUIRY-SCIENCE-SURVIVAL KIT) by collecting images of all the items needed for a real survival kit and loaded them onto your USPACE page.

Google the images and insert them into your USPACE task called Virtual Survival Kit.

## Evaluation

The second task is to make a brochure informing people what to do in a Natural Disaster. Make sure you include how to prepare, survival items, where to go for safety, a little about what the natural disaster actually is and where people can get more information from. Use the below website to create your brochure. You will need to google some images to put into your brochure. Save them to your picture library and then insert them into your brochure. Once you have finished your brochure select the save icon and choose to save it as a PDF to your PC. Rename it with your name eg. Miss Dowers Brochure and then send it as an attachment to me in USPACE. So pick the natural Disaster you would like to make your brochure on and get started!
