**Last Modified:** 2009-01-04 22:47:10

**WebQuest URL:** <http://zunal.com/webquest.php?w=22702>

### Introduction

Photography: Photography comes from the Greek meaning "light", "stylus", "paintbrush", or "graphe". Photography is the process, activity and art of creating still or moving pictures by recording radiation on a sensitive medium, such as film or an electric sensor. The discipline of making lighting and camera choices when recording photographic images for the cinemas is dealt with under Cinematography. Learning to take picture takes much effort in photography you have to be patient and creative at the same time, in order to get the right shot. Don't think about what others may say about your image. If you like it, it's worth publishing. And if your mostly lazy, fight it! Creativity comes after discipline.
