## Introduction

The topic "Four Seasons" is a very rich and important topic to teach children at the preschool age. The four seasons, when introduced to students should cover changes in weather, clothing, foods, activities as well as temperature along with other interesting facts about our weather. Children should be introduced to all these topics in a fun and proactive manner.

## Tasks

The following are 4 Different tasks, one for each season that will help the children relate to the idea of 4 seasons. Task 1 Read a Story Task 2 Complete an Art activity Task 3 Enjoy a cooking activity Task 4 Design a Literacy booklet

## Process

Task 1 Read the story "A book of 4 seasons" Task 2 Art Use construction paper and paint to make different types of flowers Task 3 cooking snowballs Prepare all ingredients watch video to complete cooking task Task 4 use provided booklet and different colors of paint related to fall seasons colors. finger paint leaves in different positions, on the tree, under the tree and so on.

## Evaluation

The children are now able to identify the 4 seasons and name them. They are able to distinguish between each season They are able to discuss details and share information related to the 4 seasons.

Category and Score	Beginning	Developing	Very Good	Excellent	Score
I can name the four seasons					
I can explain weather changes for each season					
I can name different activities for each season					
I can relate different details for different seasons					
				Total Score	

## Conclusion

The students will enjoy the content, stories, videos, songs and arts and crafts available to them. This will help enforce the ideas and bring them all together in a way that will attract the children.

## Teacher Page

This webquest aims to help students and teachers better enjoy studying themes in a classroom setting. &nbsp;having everything at your fingertips and being able to enjoy interactively with your students makes all the difference in teaching and learning.

**Standards**

This webquest follows the common core standards.

**Credits**

A special thank you to Dr. Ghada Awada for all her support and assistance in building webquests. I would also like to thank my special friend who helped me through every step.

**Other**

In order to be a great teacher you must enjoy what you do. you must not only teach your children but also learn from them and always remember to come down to their level in order for you to see through their eyes.
