Introduction

The four seasons are very interesting. We can see the change in the seasons through nature around us. The weather change the color of the trees change as well. We can observe how the animals react during every season. we also change during season, during summer we don't have school and we can enjoy the sun on the beach. when fall comes we have to start school and the weather starts to get cold and trees start losing its leaves. As for winter the weather becomes very cold and we need to stay warm, as for animals they hibernate. the last season is spring the weather is very nice and the baby animals are born. We can watch the beautiful flowers.

Tasks

The students should be able to :1. Identify the seasons2. Get cloth about each season3. Do an outdoor activity for each season4. Make an art project5. Make a booklet about seasons

Process

1.Prepare blue and brown construction paper2.Prepare the paint you need3. Prepare brown yarn4. Put the brown construction paper on the bottom as soil.5. Draw picture of a flower and sun with paint.6. Add the brown yarn as roots.

Evaluation

Students would be able to identify the 4 seasons;They can name different fruits and vegetable during each season;Students would be able to understand the changes that happen in each season;

Category and Score	excellent	very good	good	fair	Score
