WebQuest URL: <http://zunal.com/webquest.php?w=287850>

Introduction

You are an architect, and you have to give the constructors the correct information so they can build a house in a reasonable time for the Addams Family. You will need to tell them how much the project will cost, what the structure will look like, and what tools they need. The Addams Family heard that you make great houses, and you better prove them right!!!

Tasks

Make a plan of the steps of building a house
Use that information to make a Powerpoint of the steps
Design a house by yourself
Use your information to make a reasonable estimate of the cost
Do the same for the correct tools
Put all this into your presentation

Process

Make a step-by-step plan of the process of building a house on the worksheet provided
Use that design/plan to make a Powerpoint of the steps
Go to <http://www.homestyler.com/designer> to make your own house
Put that home design into your Powerpoint and label each thing you've added
Depending on the size of your house, make an estimated price of the house
Using basic knowledge, and research, put a slide into your Powerpoint of the tools necessary of construction a house
Use the links in <http://www.building-a-home-info.com/> to gather information
You may also use <http://en.wikipedia.org/wiki/House-building> to gather information
Make a final paragraph of everything you have done in this project

Evaluation

See Evaluation Below

Category and Score					Score
				Total Score	

Conclusion

Here you will sum up all your information in a brief paragraph. It may be typed or hand written. This paragraph must include the price, tools, and the step-by-step plan of the house.
