Introduction

Welcome to Today's Webquest Activity! Whenever we work as a class in the computer labs, you will usually be directed to a "Webquest" page like this one, where you will follow instructions to accomplish the unit's goals. With any Webquest, your ability to read all directions carefully will be the thing that marks your success or failure. Today's Webquest will involve information gathering about YOU and accessing some of the key tools you will need to succeed in this class. Each step in today's Webquest has a point value, and if you accomplish all steps correctly, you will earn the simple grade of 30 pts out of 30 possible points. This is an easy grade as long as you read carefully! When stuck, ask questions. When you are ready start the step by step instructions, click on TASK and begin reading the Directions!

Tasks

Directions: Please read through this entire set of instructions BEFORE you start. Once you finish reading all the steps, go back to Step #1 and start working. Please complete all the steps below by the end of class today. If you need help with anything, raise your hand and ask. You have 25 minutes to complete.

Step #1: Join Remind101 Groups (10 pts) Please join this class Remind Alerts for information and homework reminders. It is required you join, I will check off your name in my list to give you this grade. On your cell phone, text @2abd68 to the number 81010

Step #2: Complete an individualized survey (10 pts) First, take some time to fill out this confidential student survey for me. I do read these, everything helps me understand your needs better!

Step #3: Check your Powerschool account. (10 pts) Login to your Powerschools and check your grades! Raise your hand when you have the American 2 grade up on your laptop screen and I will check you off.

To access Powerschools, go to my.ncedcloud.org and login. If you don't know your password, go get it reset with one of the Media Center staff members to reset it for you during lunch today. My class requires you to check your grades at least once a week!

Step #4: Check your school email (no points, just do it!) Login to your school email and check your messages! To check email, go to wakeid.wcpss.net. Login and look for Outlook. Check yo mail! If you finish early with all the above, do something fun on the laptop! Like play the Oregon Trail game! #oldskool #doslove
