Introduction

This webquest is designed for students to explore the history and development of the sport of alpine skiing. It includes information on the origins of skiing, the evolution of equipment, and the role of skiing in the modern world. Students will also learn about the safety and etiquette of skiing, as well as the environmental impact of the sport.

Tasks

Students will be required to research and write a paper on the history of alpine skiing. They will also be required to create a presentation on the safety and etiquette of skiing. Finally, they will be required to write a short story about a skiing accident.

Process

The process of this webquest is designed to be a self-paced learning experience. Students will be able to work at their own pace and complete the webquest at their own convenience. The webquest is divided into several sections, each with its own set of tasks and questions.

Evaluation

The evaluation of this webquest is based on the student's ability to complete the tasks and answer the questions. The student's score will be based on the number of correct answers and the quality of their work. The student's score will be calculated based on the following criteria:

Category and Score					Score

Category and Score					Score
				Total Score
