				Total Score	15 Points

Conclusion

Felicitaciones! Congratulations on tantalizing your taste buds with different foods of Spain.As a result of this WebQuest, you have demonstrated a basic knowledge of traditional foods in Spain and how to order food in a restaurant. You also learnt about the different ingredients that these dishes comprise. When you travel to Madrid, Spain for real and during your travel to Madrid virtual trip class project (our other class project), you will be well-prepared to successfully dine out in Spanish restaurants and be comfortable to request various items such as your meal, a glass of water, the bill etc!ReflectionThink about our Foods in Spain WebQuest and what resources you found to be the most useful.How beneficial was it for you to work in groups to accomplish the goals of our Foods in Spain Webquest in a timely manner?How will you use this experience when you work on your next collaborative/group project? Think about how you will use your project partnerships to help you be more successful and efficient when you start your future career.

Teacher Page

This WebQuest is about exploring the beautiful culture of Spain. It will help students to understand the culture of Spain through learning about the various cuisine in Spain. It also give students the opportunity to be creative and active within the lesson. It is directed to 6th and 7th graders. It would take students approximately 1 hour to complete this WebQuest. It will help students to recall and demonstrate a basic knowledge of traditional Spanish foods and Spanish eating customs. In addition, this WebQuest promotes student development of research and technological skills, awareness of other cultures and their diversity. It presents students with the opportunity to work collaboratively with others and to present information to others in an organized and meaningful format in preparation for higher level classes and for their future career. Teachers could use this WebQuest in their teaching because it is an interactive and active WebQuest that can help students to learn about the cuisine of Spain in a fun way.

Thanks to Mrs. Williams-Young for guiding me on the process of creating a WebQuest and just always being so passionate about "Educational Technology".

Other

Albert Einstein once said, "It is the supreme art of the teacher to awaken joy in creative expression and knowledge." Many teachers believe this is hard to achieve and with the use of technology such as creating WebQuest and other online media, this can be achieved.
