### Introduction

Generally speaking, the preterite is used for actions in the past that are seen as completed. Use of the preterite tense implies that the past action had a definite beginning and definite end. It is important to realize that the beginning and the end may not always be clearly stated. In this lesson, you will research how to conjugate regular -ar, -er and -ir verbs in the the preterite. You will also apply the conjugations found by first applying them to specific infinitives given- then to sentences.

## Teacher Page

This webquest is about the use of the Preterite tense in Spanish. It is designed so that students can complete in 120 minutes in a classroom setting. Some students find the grammar topics in Spanish to be tedious. You can as a teacher link the Preterite tense with a vocabulary topic such as "at the airport," or "at the market" etc.

### Standards

Students at the grade 9 level will:  
 correctly use the simple past tense (Preterite) in discussing recent events.  
 accurately complete activities using appropriate vocabulary.
