Conclusion

It is evident that passing is needed because it allows all persons to have a chance with the ball and it is helpful to reduce the work rate of the players once the ball is being passed it is able to move up and down the field faster than dribbling.

Teacher Page

My advice for other teachers is to allow students to be comfortable during passing lessons in order to get the best out of your students.

Standards

Practical skills were tested and several learning styles were used in the presentation of this lesson.
