Focus: This WebQuest is designed as a final project while reading the novel Maniac Magee by Jerry Spinelli. It is a good conclusion to the information covered. It is also a way for students to show what they've gained from reading the novel. Standards Addressed: Plan, revise, edit, and publish clear and effective writing. Understand the function of various forms, structures, and punctuation marks of standard American English and use them appropriately in communications. Use computers to acquire, organize, analyze, and communicate information. Conduct research and inquiry on self-selected or assigned topics, issues, or problems and use an appropriate form to communicate their findings. Objectives: I would recommend starting this project prior to and while reading Maniac Magee. This way, the students build some background knowledge, and they should be able to take this project further than without any previous knowledge. They will also have a better understanding of some of the major themes this book brings to light. Students will write up a comprehensive journal that presents their findings. Students will utilize correct grammar, mechanics, and paragraph structures in their writing. Students will present their information in an organized manner. Students will answer questions assigned to them clearly and completely.
