WebQuest URL: <http://zunal.com/webquest.php?w=374596>

Introduction

Determining what is a need and what is a want is an important part of making good decisions. Things that are required in order to live are known as needs. Things that add comfort and pleasure to your life are known as wants.

Tasks

Read the 5 articles and then apply them to what you have learned from section 1.1.

Process

Phase 1: we are going to go through a PowerPoint as a class. Phase 2: Activity- List 10 needs and 10 wants that you have. Phase 3: complete webquest.

Evaluation

Evaluation will be based on the chapter test. They will have short answer questions where they will have to prove conceptual understanding of what they've learned.

Category and Score					Score
				Total Score	

Conclusion

Think about how this class directly relates to what is happening in real life. It would be wise, to approach the class with an open mind, so that you can maximize your learning potential.

Teacher Page

You can complete this webquest In 30 minutes.

Standards
