Introduction

Today you will learn a report text about personal computer. Do you remember what report text is? Report is a text which presents information about something, as it is. It is as a result of systematic observation and analyses. Then, what personal computer is? A personal computer (PC) is a microcomputer designed for use by one person at a time. Prior to the PC, computers were designed for (and only affordable by) companies who attached terminals for multiple users to a single large computer whose resources were shared among all users.
