Introduction

A new zoo has been launched in your city. You are hired as a zookeeper. A week later there will be an opening festival in the zoo for elementary school students. Curious students will wonder about animals and their abilities. They will ask you hundreds of questions about the animals. Since there's not much time, you'll have a partner who helps you.

Tasks

2 days later, you will answer the questions that students are curious about animals. You need to know animals in the zoo very well to answer all these questions. In addition, to attract more visitors to the zoo, the zoo manager will ask you to add information and pictures of the animals to the zoo website. Therefore, with your partner, you will search out the animals in the zoo.

Process

1- In the first day, search and find out the names of animals that are in the zoo with your partner. You can watch this video to learn the animals.
2- If you are sure that you have learned, Click Here to add the animals' information and pictures to the website. (Match the pictures with the correct animals. Do it on your own!)
3- In the second day, search the abilities of the animals. You will learn what they can and can't do. Watch the video to learn them.
4- After you learned what they can or can't do, Click Here to add the information to the website. (Write at least 5 sentences for each animal. For example; a tiger can't fly. It can run. Do it on your own!)
5- In the third day, you take some notes to tell curious students. Tell them about the animals and what they can or can't do. (In the classroom! For example; it is a penguin. It can swim but it can't fly)

Evaluation

You will be graded on each quiz. Also, you will be graded on your oral presentation, and paper presentation.
Quiz 1: 20 points
Quiz 2: 40 points
Oral and paper presentation: 40 points
