Introduction

Hello girls! During this webquest we will: Identify the main events on the history of design Apply a combination between design and art Understand how design helps education Explain the design thinking process Hope this webquest help you to understand a little bit better this week's topic!

Tasks

Design is everywhere! But as everything in life there is an explanation about the development and the changes that we can see during the time. Using this video and this short article as a reference, create a timeline with the most important highlights of the story of design, make sure to include details and picture to support the information. Here you have some suggestions to make your timeline

Process

Sometimes when we haven't read about design and art we are not sure about the differences and common aspects that they have. During this stage you will identify those factors. Using this article, create a Venn diagram with the most important aspects of each field. Here you have a suggestion to use.

Evaluation

It is important to always be updated. Here are some news about design and education, find 2 news that according to your opinion are relevant and share your opinion in the padlet specially created for your opinion, make sure to add images or support links.

Category and Score					Score
				Total Score	

Conclusion

Design thinking process helps developing critical thinking and the ability to solve problems. As a process it has its own stages to follow. As teachers it is important to identify the stages and how to promote them. Using this article as a resource, create a flowchart using this suggested website.

Teacher Page
