WebQuest URL: <http://zunal.com/webquest.php?w=52754>

Introduction

You may ask yourself, "How would I know which is the hundreds, tens, and ones place?" Well, this is the place for you! In this web quest lesson, you'll practice and learn ways to figure out where is the hundreds, tens, and ones place. Let's begin our lesson! We know you can do it!

Tasks

Your task is to complete the assigned activities. You will be given activities to help you learn how to remember your place values. Don't forget to read the directions first before you start!

Process

- Click on the resources below and answer the questions on a separate sheet of paper.
- You will put together the answers to the assignment in your Math Learning Log.
- Once you are done, check out the video site available below to learn more about Place Values.
