### Introduction

Well one day an angry leprechaun was very mad, he took the colors away from the rainbow and made it very sad! He asked me for help and I did not know what to do, but then I remembered all of you! Its our job to name some of his colors, because if we don't we will never see another! If we do all of our task just right, the rainbows colors will shine bright!

### Tasks

After learning about our primary colors the student's will create a poster. When completed, the children should be able to identify colors of the rainbow and associate pictures to their matching colors. Learning about colors will be fun and the children will enjoy this rainbow adventure! **Materials:** Poster Board (14x16) Glue Scissors Magazines Crayons and Markers

### Process

Ready ! I know you can do this! **Step One-** Click on the link below " Learn About Colors" have fun learning about colors on this fun website! When you think you know your colors pretty well your ready to move to **Step Two!** **Step Two-** Pick a fun color game from the link below " Cool Color Games" Play with a parent or even a friend! **Step Three ( THE BIG STEP)-** Use your poster board to create a picture collage! Find pictures that are/have the primary colors in them. Cut pictures out or draw them and paste them to the poster board. Make it creative as possible. You can use stickers, magazine clippings, online pictures, etc. On the back of your poster board write your name and the name of your favorite color! Paste pictures that have your favorite color in it **Step Four-** Bring your poster to class and share it with the class! Show your hard work off to all your classmates

### Evaluation

The teacher will evaluate the student's collage to see whether or not they matched the pictures correctly according to color.

Category and Score	Poor	Fare	Good	Great	Score
Comprehension	The student was not able to recognize any colors or their name.	The student recognizes at least two colors and their names.	The student recognizes at least four colors and their names.	The student recognizes five or more colors and their names.	0-5
Participation	The student did not participate at all.	The student attempted to participate, but did not understand the assignment.	The student attempted to participate, and understood the assignment.	The student fully participated and completed the assignment.	0-5
Illustrations	The student did not understand the assignment and did not locate any pictures.	The student understood the assignment and located at least two pictures.	The student understood the assignment and located at least 4 pictures.	The student completely understood the assignment and located 6 or more pictures.	0-5
