Introduction

Game: Divide the class into 10 groups then assign a leader for each group. The teacher will be giving each group a jigsaw puzzle of an animal that they will assemble, after they completed the puzzle the group will stand and imitate the sound of the animal. The first team that will be able to complete the task shall win.

Tasks

At the end of the lesson, the pupils should be able to :1. Differentiate animals that are born alive from those that are hatched from eggs;2. Generate ways on how to care for animals that are born alive and hatched from eggs;3. Construct a collage consisting of the animals that are born alive and hatched from eggs.

Process

a. Use the picture to show to the class that some animals are hatched from egg and some animals are born alive.
b. List down the names of the animals that are born alive and hatched from egg.
c. Discuss to the class how do animals that are born alive and hatched from egg differ from one another and the definition of born alive and hatched from egg.
d. Discuss to the class that mother animal take care of their baby animal.

Evaluation

Directions: Classify the animals that are born alive from those that are hatched from eggs. Write the answer on the appropriate column.

Category and Score	Born alive	Hatched from eggs	Score

Ostrich
 Rabbit
 Dog
 Pig
 Snake
 Frog
 Chicken
 Cat
 Horse
 Crocodile

Category and Score	Born alive	Hatched from eggs	Score

Category and Score					Score
				Total Score	

Conclusion

Let the pupils state the concepts they learned by posting a statement to be completed such as: "Animals that are born alive are _____ while animals that are hatched from eggs are _____." They must be able to differentiate the two in their own words.

Teacher Page

this webquest can help you to make your discussion easier. Just follow the steps. You can use this webquest to have a fruitful and meaningful discussion and it can also help you to have your students participate in the discussion. This webquest is for science teachers. It will help you a lot.
