In order to prepare for our unit on A Christmas Carol, you will be researching several aspects of Victorian England. Yesterday you divided the research amongst your group. Now, you need to take notes on your fact finder sheet, in order to have something to share tomorrow. Remember, you will not be able to write down every single bit of information from the websites, so just focus on summarizing what you think is most important. In our next class session, you will meet with your group and teach them about what you learned.

First, find out about Charles Dickens and his life. Watch the video. Take notes on the major events of his life. What do you think are some of the events that affected his outlook on life? What events may have influenced the topics he wrote about?

Use the links below to gather facts about the Fashion of the Victorian time period: You only need to be able to describe what the fashions look like for men and women. Feel free to draw a visual aid as well.

Fashion for Women
Fashion for Men

Use the link below to gather facts about Charles Dickens' life. Short Bio

Play the Game! Once at the site, click on the picture that looks like the one above to play. You
will come across several bits of information as you play this game. Add the facts to whichever category you think they fit best in on your fact finder sheet.
